

VISITORS' RULES OF 4DX THEATRE

Valid from 17 May 2013

GENERAL PROVISIONS

1. Before you purchase the ticket for the motion picture presentation in a 4DX theatre, make yourself familiar with these Visitors' rules. Also make yourself familiar with the list of 4DX features that is located next to the Visitors' Rules. Motion picture presentation in these Visitors' Rules means augmentation of the projection with all 4DX effects.
2. By purchasing your ticket and by entering the 4DX theatre you confirm that you are thoroughly familiar with, understand, agree to and undertake to comply with, the Visitors' rules.
3. Effects during the projection are sudden and rather strong. If you have the slightest doubts whether you are going to enjoy the 4DX projection, then you should better avoid it.
4. If you or the minors accompanied by you have any medical problems, consult your physician before visiting a 4DX movie and follow their recommendations. Observe all health-related bans and recommendations stated below in these Visitors' Rules.
5. Some viewers may suffer from headache, locomotor system pains, dizziness, problems caused by jets of air or other minor complications and, in extraordinary cases, from epilepsy symptoms during or after the projection.
6. You are fully responsible for compliance with the Visitors' Rules by minors accompanied by you. Inform them in a timely and suitable manner about all important rules of the visit in a 4DX theatre and supervise them during the projection.
7. If you or the minors accompanied by you cause damage to yourselves or other visitors due to failure to observe the Visitors' Rules, you are fully liable for such damage.

INSTRUCTIONS FOR THE MOTION PICTURE PRESENTATION

8. During the projection, stay fully focused on the movie at all times and be ready for unexpected effects.
9. The seats of the 4DX system will move or vibrate. Sit upright and keep your feet on the footrest.
10. Make sure your things will not fall, spill out, leak out, blow away or stain. Scarves, hats, caps or other light things blown away may directly interfere with the projection and its special effects.
11. You may be hit by clean water or bubbles from treated water that may stain cloth, especially silk.
12. Do not get up and leave during the movie unless absolutely necessary. Be extremely careful during any movement; the seats may move unexpectedly at any time or other effects may start.
13. Do not lift up items fallen or blown away as well as spilt food or beverages during the projection. Wait until the end of the movie.
14. Make sure parts of your body or clothing do not get between the moving seats, or between the seats and walls or stairs during the projection as you may get injured or your clothes may get damaged.
15. Do not get close (especially with your eyes) to the special effects units, especially blowers and jets and also avoid the contact of your things with the same otherwise you may suffer injury or damage to your items.
16. Be prepared that the projection may be disturbed due to failure to observe the rules by other visitors (especially flying items).
17. The cinema operator shall bear no liability for injuries of other medical problems arising from failure to observe the Visitors' Rules or damage or loss of your items brought into the theatre that were not sufficiently secured or protected.

For the sake of your safety and in order to prevent undesired consequences and inconvenience, you are not allowed to enter if you suffer from:

- Epilepsy
- High blood pressure
